Tech Talk:

The 2008 and up Mustangs have at least a 100 amp alternator. A common problem is burning up batteries and self-destructing alternators. The cause is a bad ground somewhere in the system. At a minimum an additional ground should be run with heavy gauge wire to the engine and body.

Show & Shine business

The all car club show and shine will be at the Tallahassee Antique Car Museum near I-10 exit 209 and Mahan Drive on October 6^t. We will, as usual, collect stuffed animals for the Highway Patrol.

Old business

Please join the Panhandle Ponies as we cruise to Carrabelle, FL, to visit the New Camp Gordon Johnston Museum (1873 U.S. Highway 98 West, Carrabelle, Florida 32322). We will be meeting at the Shell station at the intersection of Capital Circle Southeast and Woodville Highway (4620 Woodville Highway, Tallahassee, FL 32305). We will assemble at 9:00am Saturday 21 July 2018 for a departure about 9:15.

New business:

The August cruise will be on the 25th and will be to the Cairo City Grill at 124 S. Broad Street in Cairo, Georgia. A meet time will be announced next month for a cruise to this spot.
